**Car spaces available \$15
each, prepay at office**

Tel: 838 9318

**Subject to weather, rain dates will be
announced closer to the time.*

The Brick Maize

By Henry, Dream, Josiah, Veronica, Andy and Arhaan

Mrs Samson came to our class to fetch the gardening group. At first some of us didn't know what we were going to do, but then we soon found out. We went to pick up rubbish outside room 13. Then we were told to fetch bricks from the rubbish pile. Most of us carried one brick at a time. Lots of bricks were big and they were a little bit heavy. Someone was super strong and carried six bricks in one go. Some people were taking each other's bricks, because it was so hard or lazy to get the bricks out of the pile.

When we ran out of bricks, someone spotted a pile of bricks stacked up against the wall. We carried lots of them to the garden patch. Mrs Samson dug the path in multiple ways and some laid the bricks down in that path. Others went to fetch more.

There were some funny bricks- some were cut side ways, some bricks were squares and some were triangles. Some were so pointy that there was just enough space to fit them into. We laid the bricks down following the path and then we made long wiggly winding lines. Some people got really dirty and messed on their uniforms. Dream said she should have tied her hair up, because it was all over her face.

We had so much fun creating the maize. We were really sweaty and hot after creating these paths. Thank you Mrs Samson for helping us to create the brick maize and for our sweet treat after all that hard work.

The group felt so proud that they were helping to make a beautiful space and area in our school. If you haven't seen it yet, make sure you do.

It looks fantastic!!!
