Wednesday 24th October - Term 4 - Week 2

Kia ora, Talofa lava, afio mai, 'nāmāstei, pai ata, Kuja hapa, greetings, สวัสดี, 欢迎 and malo e lelei,

Kia Ora Whānau.

It was great to see the Junior School out enjoying their walk to the Trust Stadium yesterday. It is such a wonderful learning area with lots to offer our students. Thank you to the parents that went on the walk to help.

Thank you to Kathy and Marie who have been organising our fundraiser on November 3. The car boot sale before the fireworks display will give lots of opportunity for early Christmas bargains. It is always one of my favourite nights, and a great way to connect with the community and the school is one of the best vantage points around to watch the fireworks in West Auckland.

Margaret Samson (Principal)

LOST PROPERTY

Lost property will be on display on the seats outside Room 6 and 7 every Wednesday from 1:30 to 3:30pm. So come and find your childrens lost items!

SUBJECT TO CHANGE**

2019 Term Dates

- TERM 1 4 FEB - 12 APR
- TERM 2 29 APR - 5 JUL
- TERM 3 22 JUL - 27 SEP
- TERM 4 14 OCT - 13 DEC

PARK and WALK

With the weather being better it's a great opportunity to use our Park and Walk Zones. Our car park still gets very congested from time to time. Use our park and walk zones and walk into school to collect your child. Marie Cres, Vodanovich Rd and McKenzie St are options or anywhere else you can park and walk in to school to pick up your child. Thank you for your support in keeping our car park less congested and safer for our children. The Travelwise team

SATURDAY 03 NOVEMBER

CAR BOOT SALE STARTS AT 3 PM

Car spaces available \$15 each

prepay at office

Tel: 838 9318

Come along and make some extra money for Christmas

Food and drink for sale

Mr Whippy onsite

The Trusts are having their fireworks night the same day, so stay on and enjoy one of the best views of the fireworks in West Auckland.

Enjoy a picnic dinner of delicious barbeque food and other goodies on sale and enjoy the best view of the Fireworks in West Auckland!!

**Subject to weather, rain dates will be announced closer to the time.*

The Boat Up-Grade

By Room 7

Yesterday all of the classes went to watch the lifting of an immense crow's nest. The crane had a long arm that looked like a cobra being sneaky and ready to ATTACK! There were three dangling worm chains at first and then they attached them to a little hook. Then the arm stretched and tried to put it in place. We were all screaming and lots of tree branches fell down and one window. A man was controlling the immense crane and helping to pull it into place. Then it slowly went down like a lift.

By Ammaarah

Yesterday some men came to our school and build a crow's nest for on top of the mast. We saw a big crane and a big arm was holding the crow's nest to put it on the middle mast.
By Jessica

Yesterday the boat had an up-grade. They put a crow's nest on the mast and the crane got it on with five chains. One window fell off and one branch too.
By Noah-Joe

The crane slowly lifted the crow's nest up to the mast. We sat there forever. Then the glass fell off. One of the builders ran back to the slide. The mast was COLOSSAL! They have been working on it for two days.
By Kryton

Yesterday we went out to see the crow's nest get lifted up to the mast. There was a man controlling the crane. The crane looked like a monster's arm. I said "WOW!" so loudly and they were moving it into position. There was a man under the crane and I thought he was going to hit something. Today they were fixing the slide too.
By Carel

Yesterday the builders up-graded the boat with the crow's nest. The crane was long like a giraffe's neck. It had two chains and a person holding something. The crow's nest was breaking branches from the immense tree. It was in the middle of the biggest mast. Most of the people were shouting when it was breaking the branches.

By Ishan, Adil and Jun-Kit

Yesterday at school the builders put the crow's nest on the mast. The branch fell off and one window fell down. I was worried that the crow's nest would fall on the men. One man was holding a chain. There were four chains. The crow's nest went down like a helicopter.
By Skye and Ellora

Yesterday we went outside to see the builders put the crow's nest up on the mast. First they put the chains on the crow's nest and the crane carried it up to the mast. And the crane went straight up like a cobra and I said "Wow!" When they put it on the mast part of the tree fell off and the window fell down. I was worried that the crow's nest might fall off. They got it on and I was clapping and I was happy too.
By D.J.

Yesterday we saw the boat being up-graded. We raised money so it could happen. When we left for the school holidays it didn't have the masts and when we got back it had three masts. The masts are so tall they look bigger than the sky tower. Then we saw the crow's nest being lifted up on to the biggest mast. The crane's chains were like wiggling worms. The window from the nest fell and shattered into pieces.
