Can you believe we are halfway through the term? It is so great to see everyone at school and settled into their learning.

We have already had school trips last week and this week. This feels like school is back to normal.

We have a fun Picnic afternoon happening in a couple of weeks at Te Atatu Intermediate School between 4-6 on March 23rd. There will be a petting zoo , bouncy castles, so bring your picnic dinner along and enjoy the fun. Mr Whippy will be there and some stalls selling cakes and lollies. It is a community event for all schools in our area, to help us get to know each other. I hope you can make it.

Matuku Link Visit

By Tane Matthews

I saw that eels eat eggs. I also liked touching the trees and seeing the bug house. I liked the bird lookout too. We also guessed bird calls. We caught little creatures with spoons. We also went for a walk.

Yesterday my class went to Matuku Link. I went in Mrs S's car. We saw eels and they were cool. We used binoculars and were listening to bird calls. I liked Matuku Link, but... I did not like the sun, because it was too hot. I liked scooping creatures up from the bucket.

On Monday we went to Matuku Link, aka Wetlands. There were bugs and birds and we saw a bug house. There were eels and the girl eels can get up to two metres. There were wild berries too. It was fun.

When we got there, we saw eels and I found out they only eat eggs. We walked to the trees and I wanted to eat the seeds. I ate some and I didn't like the seeds.

Yesterday we went to Matuku Link and we saw birds. We listened to bird calls. The best part about it was searching for birds using binoculars. We went for a long walk. Something that was interesting was that the eels eat eggs. We played water/creature game. We had to grab the creatures from the water with a spoon. Our score was 6. We saw trees. I went with Aanvi's dad. We maybe drove for about half an hour to get there. I brought a jacket, packed lunch box and a full water bottle.
