Kia ora, Talofa lava, afio mai, 'nāmāstei , pai ata, Kuja hapa, greetings,

স্বাগত, 欢迎 and malo e lelei, Salaam

I hope everyone had a relaxing and restful weekend. At the end of term 1 the Edmonton Board of Trustees had a parent hui where we had great discussions around how to make our school progress in all areas of education and home school partnership . We are working on lots of new initiatives starting with acknowledging all students' birthdays in our whole school assembly, and a new resilience award. The resilience award goes to students who show a willingness to give things a try, not always being the best but having a go.

Natalie Hurley- Lawler received this award last week at our whole school assembly. Congratulations Natalie. I look forward to giving lots of these awards out to students over the year.

Margaret Samson (Principal)

Praying Mantis

The Praying mantis can climb on walls. A praying mantis can camouflage on green things. It has three body parts, a head and thorax and abdomen.

By Sariah

Praying Mantis

They have six legs. They have yellow eyes. They have a head, abdomen, and a thorax.

By Tom

The praying mantis can camouflage themselves. They can camouflage on leaves and grass. It has wings and it can fly. It has six legs. It is an insect. It also had yellow eyes.

By Zia

The Praying Mantis

The praying mantis was green, and the praying mantis is cool. It has six legs.

By Elise

Praying Mantis

We saw a praying mantis. It had three body parts. It had sharp claws. It had a head, abdomen, and a thorax.

By Karthik

This day we saw a praying mantis. It has six legs, three body parts and it can camouflage in the grass.

By Astianna

Praying Mantis

A praying mantis can camouflage. Their eyes are yellow, and the praying mantis is green. They have six legs.

By Sierra

Year 3 & 4 - by Rm 7

Mrs Mays found a praying mantis in the classroom.

This is what we noticed.

The Praying Mantis

A praying mantis has six legs, that means it is an insect. It looked like grass that walks with legs. It is green and it has wings that can fly. After morning tea we let him out.

By Kayden

Everyone saw an insect. The insect was called a praying mantis. It can climb with its sharp claws. It has six legs and has yellow eyes. It has three body parts and a skinny neck too. Mrs Mays let it go outside.

By Aabir

Praying Mantis

Today Mrs Mays showed us a praying mantis at school. It had six legs and a skinny neck. It also had three body parts and a yellow abdomen. It had yellow eyes.

By Alyssa

Praying Mantis

Praying mantis have six legs, that means it is an insect. They are called praying mantis because they put their front legs together like they a praying. Praying mantis have sharp claws on their legs. They have three body parts called head, abdomen, and thorax. It also has a skinny neck and two green wings. It was interesting to learn about the praying mantis.

By Tatenda

Praying Mantis

This morning we saw a praying mantis. It had six legs and it is an insect. It has a skinny neck and two wings. It has sharp claws and yellow eyes. It can camouflage on green things. It can climb and has three body parts, it has a head, abdomen, and thorax.

By Blessing

The Praying Mantis

This morning we had a look at a praying mantis. A praying mantis has six legs and a skinny neck. We know it is an insect because it has six legs. It has three body parts: a head, an abdomen, and a thorax.
