Last week our senior leaders had a great day out, challenging themselves to overcome obstacles and problem solve. I was very proud of their energy to go over and above and keep going when it got tough. Well done everyone . Building resilience is so important for future generations, and you showed how well you are developing these skills.

Space

Room 1 have been learning about space. We have done some fun experiments making fizzing stars, we also got to lie under the table and look at the stars while we listened to space sounds. Last week Matua James helped us learn about the first landing on the moon and then we used Scratch Junior to put ourselves in an astronauts suit on the moon.
