Kia ora, Talofa lava, afio mai, 'nāmāstet , pai ata, Kuja hapa,  
greetings, สวัสดี, 欢迎 and malo e lelei, Salaam

On Friday our Kapa Haka Group performed with Te Atatu Intermediate School at the combined cluster / Kahui Ako Matariki Celebration. They were amazing. They really stopped up and performed with skill and passion. There were around 2,000 people watching and viewing by zoom. A huge thank you to our Tutor Tere Tamarua, for coming every Wednesday to take our group. A huge thank you to those that helped out on the day. We had so much support for our event. The day was a celebration with all of our local schools performing together for the first time since 2019.

I would like to welcome Jesmond Filipo to our community . Jesmond is the newly appointed Principal at Rangeview Intermediate School. Jesmond is going to be at our school on Thursday Aug 3rd from 2.30 - 2.50. If you are a parent of a year 5 or 6 student we would really love it if you could come along and meet Jesmond

*Margaret Samson* (Principal)

Talofa lava, my name is Jesmond Filipo and I am the proud, new Tumuaki at Rangeview Intermediate School.

I was born and raised in West Auckland and call it home. I would love the opportunity to speak with you about your child's future and how Rangeview Intermediate School could support them in some of the most important years of their life.

I will be at your school on Thursday Aug 3rd from 2.30-3pm with a few of our students and our Deputy Principal Mr Elgar.

## **AWARD WINNERS**

**Attendance: Room 2**

# The Golf

Last week around Wednesday there was a golf ball randomly rolling towards me, there was someone looking at it roll but I don't think its theirs because if it was the owner they would get it but he didn't. So after the bell went I gave it to Ms. Defire and then at lunch she told me to count how many dimples there are and after awhile the total was 376. It was a Top Flite XL, I thought the XL meant extra large but it meant extra long. I wanted the ball and so did Millie so Ms. Defire said that she'd try find one that's been in her house so when she finds it we can both have one.

By Drayce

Last week Drayce and Millie found a golf ball. The golf ball is shaped like a sphere. It has 376 dimples; the brand is Top Flite XL. A golf ball can be different colours for example red, blue, yellow, pink, and more. Different brand golf balls are the same size.

By Melody

Last week Drayce found a golf ball, since she found the golf ball the teacher told her to count the dimples. But Drayce had to get a white-board marker and had to count it we had to guess how many dimples it had. After everyone said their guess Drayce was done counting there were 376 dimples and Theo said 400 so Theo won, then Drayce gave the golf ball back to the teacher.

By An

The Golf Ball, last week Drayce and Millie found a golf ball. The teacher said Drayce could count the golf ball's dimples, there was 376. The name of the golf ball is Top Flite XL. There are different colours. Some have rubber bands, plastic and other stuff in them. Some are soft and bouncy and some are hard and don't bounce. And it is a sphere shape.

By Chanikya

By Room 8

On Wednesday me and Drayce found a golf ball the size is a XL. It's got 376 dimples and it bounces really high. Ms. Defire googled what was inside a golf ball, turns out it has rubber bands inside it. The whole class tried to guess how many dimples it had, Theo was the closest with 400 as his guess.
